

# reamedi classroom

it's not merely a Smart Classroom education! It's more than that! It can do wonders!"

**REAMEDI SMART CLASSROOM** is completely different from smart classrooms or Virtual Classrooms

**REAMEDI SMART CLASSROOM** - is an interactive, collaborative, intelligent and responsive Smart Classroom

If your Smart Classroom has not lived up your expectation, if it has failed to enhance and empower your students and teacher, if it has failed to connect students, teacher, parents and management, if it has not created an interactive classroom and if it has costs you lot... Then it's time to look at our Breakthrough "REAMEDI SMART CLASSROOM", rather than calling Smart Classroom we can call it intelligent, interactive, collaborative and responsive smart classroom.

Normally any Smart Classroom comes with Projector, Smart board and 3D content. Majority of the time, the 3D content projected are self explanatory, one way communication, where the teacher has little role to play and it is monotonous. Beyond certain period, at the classroom, it would be difficult to make the students as participants in the learning process. Hence majority of the smart classroom has not created the desired impact in the learning outcome.

Until unless you involve the students in the learning process interactively and make them to work collaborately, it would be very difficult to create an impact in the learning outcome.

Hence, the unique technology has been evolved called REAMEDI CLASSROOM. By bring smart features in a conventional way, it called REAMEDI SMART CLASSROOM. It has 3D content for all the classrooms in state and Central Board of Secondary Education. It enables the teachers and students to views, study, learn and evaluate themselves.

By empowering teachers to use the smart classroom platform and teach the way they imagine to inspire the students, based on the curriculum and syllabus. Also they can use the available content, 3D animation and the open content available through internet and teach through the digital whiteboard embedded and save the entire conversation happened in the classroom into cloud is called "REAMEDI SMART CLASSROOM PRO" for further access for review learning.

Bringing an interactive, collaborative, intelligent and responsive Smart Classroom is through REAMEDI SMART CLASSROOM LIVE. It empowers the teachers, students and parents and brings teacher-student ratio 1:1 and also connects the parents. It makes the teachers, students to interact, collaborate and contribute. It empowers the teachers to be more dynamic and able to inspire the students by the unleashing the knowledge in multidimensional perspective using the technology. It helps the teacher to evaluate their teaching by asking questions in every session and get the response instantly from the students through their 7"/10" Tabs, mobile devices such as Android and iOS mobiles/tabs. It enables the students to study the lessons and the rich contents on their leisure, attempt the questions by practicing quiz and improves their understanding skills. It also helps the students to access the recorded sessions of the classes lively through the REAMEDI CLOUD.

REAMEDI SMART CLASSROOM is equipped with REAMEDI Pvt Cloud, REAMEDI Teacher Tablet, Short throw/Ultra Short throw Projector, Smart White board kit, Student tablets (7" or 10") and Multimedia Content for CBSE Syllabus and Virtual Science Lab, State Board Contents.

Time for us to see beyond normal worthless smart classrooms, and our conventional method of teaching with white/Black board, text books, notebooks and where no personal attention towards students. This "REAMEDI SMART CLASSROOM" will bring new life to the entire Education system by connecting Parents, Teacher, Student & Management with effective TABLET based ICT digital interactive technological tool.

"REAMEDI SMART CLASSROOM makes day today classroom more vibrate, live and interactive. Ultimately it enhances, Increases learning and listening potential of students by incorporating the functions and features of regular classroom activity.
